

## MEMO

**TO:** Mayor and Town Council

**FROM:** Joseph A. Fivas

**DATE:** April 6, 2010

**SUBJECT:** Neighborhood Meetings

---

In the following months, the Town Manager and staff will be presenting new town initiatives that have been outlined by the Mayor and Town Council through the budget process at prearranged meetings in Indian Trail neighborhoods. The Town Manager and staff will also be listening to input from community members about Town services and other ideas they have that would improve Indian Trail. I believe this kind of interface will assist the Town Manager and staff in understanding concerns and needs from Town residents.

The Town will not be spending any Town dollars on these events, except for the preparation of handout materials. We will also very spend limited resources for publicizing these meetings; we are hoping to work directly with some of the neighborhood organizations.
